

THEALIPID®

Soybean Phospholipids, Medium-chain triglycerides, Glycerol

Medical device IIa - CE0123

NATURAL LIPID TEAR FILM RESTORATION

Restores and stabilises
the tear film for long-lasting
symptom relief.

- 🔥 Meibomian Gland Dysfunction
- 🔥 Evaporative and Mixed Dry Eye
- 🔥 Hormonal changes
- 🔥 Contact Lens Wearers*
- 🔥 Watery eyes

*After instilling TheaLipid® wait for 15 minutes before putting in your lenses.

THEALIPID[®]

36%

of Dry Eye patients have
Evaporative Dry Eye¹ (EDE)

50%

Mixed Dry Eye¹ (ADDE** & EDE)

RECOGNISE EDE SYMPTOMS:²

Burning sensation
Watery eye
Redness of eyelid

Other symptoms can occur:
itchy/gritty eyes, pain,
foreign body sensation, photophobia

86% of Dry Eye Disease involves Meibomian Gland Dysfunction and lipid layer disruption¹

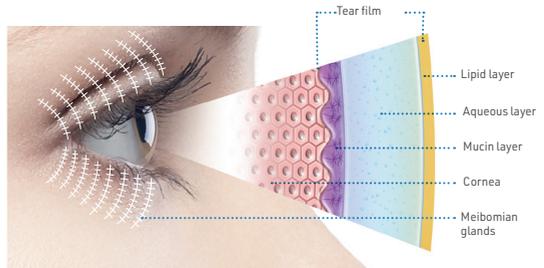

Lipid layer: role in tear film stability

 A complex organisation of hydrophobic lipids (**triglycerides**, free fatty acids) and hydrophilic lipids (**phospholipids**) produced by the **Meibomian glands**

 First-line protection from the external environment

 Prevents tear evaporation

 Helps keep the tear film smooth for an optimal refractive layer

Healthy tear film

Damaged tear film

**Aqueous Deficient Dry Eye

THEALIPID®

DOSAGE

Instil 1 or 2 drops morning and/or evening
3 months use from opening

Restores the lipid layer

Can help 86% of Dry Eye cases

Preservative-free

Long-term symptom relief

Multidose bottle

Natural source of lipids

Suitable for contact lens wearers*

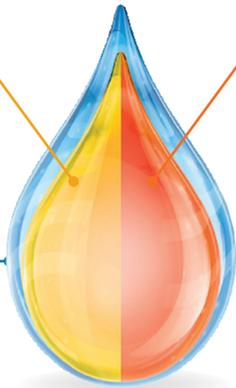

3-in-1 formula with natural lipids

SOYBEAN PHOSPHOLIPIDS

Stabilises the tear film and anchors the lipid layer to the underlying aqueous layer. Helps maintain lipid layer structure³ (**Hydrophilic**)

GLYCEROL

Non-blurring and long lasting lubricant^{4,5} to maintain osmotic balance⁶ and aids uniform spreading into the tear film

MEDIUM-CHAIN TRIGLYCERIDES (MCTs)

Restores the lipid layer, which controls the evaporation of the tear film by forming a lipid barrier^{7,8,9}

PRESERVATIVE-FREE

THEALIPID®

Soybean Phospholipids, Medium-chain triglycerides, Glycerol

Medical device IIa - CE0123

NATURAL LIPID TEAR FILM RESTORATION

Restores and protects the ocular surface, controls tear evaporation and provides long-lasting relief of Dry Eye symptoms for treatment of Evaporative Dry Eye

"I've tried multiple dry eye drops, they were ineffective or left my eyes feeling 'sticky' and 'crusty' overnight. TheaLipid® was a transformation, it was totally effective and lasted longer in my eyes than all of the other brands.

I would thoroughly recommend TheaLipid.®" Mr. C, UK, Nov 2022
